# 1 INSTRUCTIONS TO PROPOSERS

## 1.1 Introduction

This Request for Proposal (RFP) has been prepared by the European Centre for Medium-Range Weather Forecasts, (governed by its Convention and associated Protocol on Privileges and Immunities which came into force on 1 November 1975 and was amended on 6 June 2010) ("ECMWF") for the purposes of obtaining proposals from suppliers for provision of services for updating, maintaining, and developing eLearning modules.

The submission of a response to this RFP shall constitute an offer that may be accepted by ECMWF so as to become a binding contract. However, ECMWF is not bound to accept any quotes. If ECMWF elects to accept a quote, subject to contract, the parties shall execute a formal contract incorporating the terms and conditions contained in the RFP and any other agreed terms.

### 1.1.1 Introduction to ECMWF

ECMWF is an independent intergovernmental organisation supported by 35 States. Information on ECMWF's activities can be found at <https://www.ecmwf.int/en/about>

ECMWF has currently three sites: its Headquarters at Shinfield Park, Reading, UK, a data centre in Bologna, Italy, and an interim site in Bonn, Germany, hosting all of ECMWF's EU-funded activities.

## 1.2 Background to the project

The background to this RFP is described in Annex 1.

## 1.3 Confidentiality

The contents of this RFP together with all other information, materials, specifications or other documents provided by ECMWF, or prepared by respondents specifically for ECMWF, shall be treated at all times as confidential by the respondents unless it is already in the public domain. Respondents shall not disclose any such information, materials, specifications or other documents to any third parties or to any other part of the respondents' group or use them for any purpose other than for the preparation and submission of a response to this RFP nor shall respondents publicise ECMWF's name or the project without the prior written consent of ECMWF. Respondents shall ensure that all third parties to whom disclosure is made shall keep any such information, materials, specifications or other documents confidential and not disclose them to any other third party except as set out above.

ECMWF reserves the right to retain all documents submitted by respondents in response to the RFP. Any information in such documents that is proprietary and confidential to the respondent will be handled confidentially by ECMWF provided it is clearly and specifically identified as such. Such obligation shall not apply if such information is or was obtained from other sources that do not bind ECMWF as to confidentiality or if the information is in the public domain. ECMWF may make responses available for evaluation purposes to authorised people including its governing body, committees, and professional advisers in addition to ECMWF's own personnel under the same conditions of confidentiality.

Please also note that all personally identifiable information (PII) requested by ECMWF or provided by respondents will be treated in accordance with the ECMWF Policy on Personally Identifiable Information Protection (PIIP). It is available at <https://www.ecmwf.int>. ECMWF shall process all PII submitted by your response for the sole purposes of assessing your response. In doing so, ECMWF may share such PII with consultants or external advisors.

## 1.4 Enquiries and contact procedure

Any enquiries or requests for clarification of any matters arising from this RFP should be sought from the Procurement Section at ECMWF and must be made in writing by e-mail as follows:

Contact name: Procurement at ECMWF

E-mail: [procurement@ecmwf.int](mailto:procurement@ecmwf.int)

The subject of the email must be: **“Clarification to RFP/2025/385”**

Where ECMWF supplies further information regarding the RFP or issues clarifications as a result of the questions received it will make them available through its web page in accordance with the timetable in Section 1.5, unless the question is specific to a supplier’s proprietary solution. The identity of the questioner will not be revealed. The bidders are advised to follow ECMWF website for any updates or clarifications that may be announced.

## 1.5 Timetable for procurement

ECMWF envisages the following timetable for this RFP:

RFP issuance date	14 July 2025
Final date/time for receipt by ECMWF of clarification questions	24 July 2025
Date by which clarification questions will be answered	27 July 2025
Closing date/time for submission of responses	<b>25 August 2025, 14:00 hrs (UK time)</b>
Evaluation of proposals by ECMWF	25 August – 26 September 2025
Negotiations with one or more Proposers	26 September – 10 October 2025

## 1.6 Submission of responses

The respondent must submit their response to [RFP385@ecmwf.int](mailto:RFP385@ecmwf.int) as an email with attachments containing its complete response to this RFP including its response to Annexes 1 and 2. The attachments must contain a printable version of the response in Microsoft Word format, Rich Text Format (RTF) or Adobe Portable Document Format (PDF) and in Microsoft Excel format for any spreadsheets. The email should confirm that the response has been submitted by a duly authorised director or senior officer of the respondent.

The subject of the email must be: **“Response to RFP/2025/385”**

**You will receive an automated receipt confirmation upon submission of your response. If you do not receive one, you should contact [procurement@ecmwf.int](mailto:procurement@ecmwf.int) immediately.** You must NOT send or copy your response to the contact email address in 1.4 above.

Please note that ECMWF reserves the right to contact bidders during the evaluation process in order to clarify points in their response, therefore the contact point should be monitored during this period.

### 1.7 Timeliness of response

ECMWF will not consider any late or partial responses to this RFP, nor will it consider requests for extension of the time or date fixed for the submission of proposals. It may, however, at its own absolute discretion extend the time or date fixed for submission and in such an event ECMWF will notify all Proposers who have provided ECMWF with an e-mail address for communication of additional information.

Technical failure, including of a computer, browser, e-mail system or internet connection, is not a valid reason for late or failed submission of a response, unless as a result of a failure of the ECMWF's IT systems, and in the case that there was no reasonable course of action the respondent could have taken to submit the response on time. **It is important that you do not leave the submission of your response to the last minute.**

### 1.8 Costs of preparation of response

Recipients of this RFP will be responsible for and bear all of their own costs, liabilities and expenses which may be incurred in the preparation of their responses to this RFP.

### 1.9 Evaluation method and selection criteria

Responses to this RFP will be evaluated based on the criteria and weights shown in the table below:

Evaluation criteria	Weighting
Track Record	20%
Quality of Resources	20%
Technical Solution Proposed	30%
Price	30%

ECMWF reserves the right to negotiate with one or more respondents before taking a decision on the placing of a contract. This may involve a meeting either in person (on site in Reading) or via video-conferencing. ECMWF cannot reimburse the respondents for any costs relating to such meetings. Following notification of the result of your bid you may request feedback on the evaluation from ECMWF.

### 1.10 Warnings/disclaimers

Nothing contained in this RFP, or any other communication made between the respondent and ECMWF, or its representatives shall constitute an agreement, contract or representation between ECMWF and any other party (except for a formal award of contract made in writing by ECMWF). Receipt by a respondent of this RFP does not imply the existence of a contract or commitment by or with ECMWF for any purpose.

ECMWF reserves the right to change any aspect of, or cease, the RFP at any time.

While ECMWF has taken all reasonable steps to ensure, as at the date of this document, that the facts which are contained in this RFP are true and accurate in all material respects, ECMWF does not make any representation or warranty as to the accuracy or completeness or otherwise of this RFP, or the reasonableness of any assumptions on which this document may be based. ECMWF accepts no liability to respondents whatsoever and however arising and whether resulting from the use of this RFP, or any omissions from or deficiencies in this document.

ECMWF may use the information included in a response for any reasonable purpose connected with this RFP.

### 1.11 Validity

The proposal shall remain valid for a minimum of three months after the closing date for this RFP.

### 1.12 Diversity and inclusion

At ECMWF, we believe that scientific progress thrives in an environment that values diversity and inclusion. We are committed to fostering an organisation that is equitable, diverse, and inclusive, and to promoting gender balance in all aspects of our operations. We recognise that diversity and collaborative environment are essential for advancing scientific discovery and innovation, and we are dedicated to creating a culture that encourages and supports the contributions of individuals from all backgrounds. As part of this commitment, we encourage responses from companies who share our values and demonstrate a commitment to diversity and inclusion in their own organisations. In the event that multiple bidders present equally qualified proposals (discrepancy lower than 1%), ECMWF will take into consideration the diversity and gender balance of each bidder's organisation as a tiebreaker when making the final decision. Therefore, we invite all Proposers to provide details on their policies, programs, and practices related to diversity and inclusion, including gender balance and any initiatives or activities that they have implemented to support underrepresented groups in their organisation.

## 2 Annex 1: Specification of Requirements

### 2.1 Background

An integral part of ECMWF's activities is training. The objective to assist in advanced training for scientific staff in Member States in numerical weather prediction is stated in the Convention establishing ECMWF.

ECMWF has an established training programme offered to Member and Co-operating States. This includes advanced training in ECMWF forecast products, Numerical Weather Prediction (NWP), ECMWF Computing services and tools, and the use of emerging technologies such as Machine Learning (ML) in the Weather and Climate domain. Training targets existing and new users in Member and Co-operating States, in the context of both Member and Co-operating State and EU-funded activities.

To support training courses and self-study, ECMWF has developed eLearning resources, which are freely available on a Moodle based Learning Management System (LMS), <https://learning.ecmwf.int/>.

The eLearning modules on ECMWF's LMS include 31 modules in SCORM format, authored in the Articulate Storyline software. Each comprises around 30 to 60 minutes of learning. The target audience includes meteorologists, forecasters and scientists from ECMWF Member and Co-operating States. The topics of the eLearning modules can be divided into three categories: Forecasting; Research; Software, Data and Computing. These will be referred to as ECMWF's core eLearning modules.

In addition to these, the LMS hosts a number of other eLearning modules. Some were created as part of a Massive Open Online Course (MOOC) on machine learning (ML) in weather and climate, others were created for the Copernicus Climate Change Service (C3S).

### 2.2 Objectives and scope

The objective of this RFP is to enter into a 3-year contract with a supplier for a provision of services to maintain and update the existing core eLearning modules, and develop new ones. The ML and C3S modules are maintained in the context of other contracted activities. However, some support may be required for these as well.

Specific work packages of this RFP are outlined in the following sections. Respondents are invited to submit a proposal covering the requirements outlined for each work package. Proposals must include all work packages.

### 2.3 Specification of requirements

#### 2.3.1 Work package 1: routine updates and maintenance of eLearning modules

Work package 1 includes supporting ECMWF with updates of its core eLearning modules. These currently include the 31 SCORM packages comprising around 30 to 60 minutes of learning, as described in "Objectives and scope" above. Updates may range from fixing broken links, keeping references to forecast cycles up to date, to more complex design of new graphics and animations. The more trivial updates may be required on an ad-hoc basis, while more significant improvements may be scheduled according to a pre-agreed plan of priorities to be proposed by ECMWF and agreed on a quarterly basis.

In all cases, ECMWF will provide the necessary input content. The task of the successful Proposer is to ensure the content is inserted into eLearning resources in a presentable format, and if necessary create figures, animations, pop-ups and other graphical outputs from the scientific input provided by ECMWF. The successful Proposer shall rebuild the eLearning resources with the modified content, and support ECMWF with their publication on ECMWF's LMS.

The successful Proposer shall have the agility to make small edits, such as text edits, in a timely manner. More substantial edits, such as edits to graphics or interactive content, may be based on a pre-agreed plan of priorities to be proposed by ECMWF and agreed on a quarterly basis.

In their approach to work package 1, Proposers shall include a quality assurance process, which will guarantee a 4-eyes principle of double-checking deliverables before they are submitted to ECMWF for final check and approval.

Proposers shall include in their proposals a mechanism to provide hand-over to ECMWF, should it wish further maintenance to be carried-out in-house. This shall include information on necessary software licenses, including estimated costs, and at least once per year a training, such as a webinar, on how to make edits to eLearning resources.

#### *2.3.1.1 Estimated effort and schedule*

In the case of routine updates, the estimated effort is around 24 days Full Time Equivalent (FTE) over the course of the contract for editing and graphics support, and minor support to train ECMWF to make in-house edits should this be requested by ECMWF. This will be required on an ad-hoc basis.

In the case of more extensive updates, it is difficult to estimate how much effort would be needed. In such cases an assessment would be made on whether to update the existing module that requires significant changes, or to replace it with a new one. The latter case falls under Work Package 2.

#### *2.3.1.2 Deliverables*

Updated eLearning modules with edits to content and any updates to metadata, graphics, descriptions, etc. of the eLearning modules necessary for their publication on ECMWF's LMS.

Training material or documentation to enable ECMWF to potentially make routine updates to training material in-house ECMWF.

### *2.3.2 Work package 2: Development of new eLearning modules or submodules*

This work package foresees the development of new eLearning modules, or constituent parts of eLearning modules. New module developments shall be scheduled in a pre-agreed plan to be proposed by ECMWF on a six-monthly or annual basis.

#### *2.3.2.1 eLearning module proposal in response to this RFP*

In their responses to this RFP, Proposers shall propose options for the format and layout of new eLearning modules. These should be suitable for the target audience described in the section on "Objectives and scope" above. Proposals shall include estimates of efforts, planning and budget for each option. Proposers shall include in their eLearning module proposal an approach to design, test and iterate new developments. This includes an outline of how the effectiveness of developments against desired outcomes would be prioritised, built, tested and measured. Given that different

developments will have variable prices, Proposers shall provide price estimates of example developments for an eLearning module that includes one hour of learning content (Proposers are free to choose one of the modules from the ECMWF LMS that they deem most representative for this purpose). The price of any development shall be proposed for agreement and approval by ECMWF.

Proposers shall outline in their proposals an approach to quality assurance in developing eLearning resources, which will guarantee a 4-eyes principle of double-checking deliverables before they are submitted to ECMWF for final check and approval.

#### *2.3.2.2 eLearning module proposal further development as WP deliverable*

The successful Proposal shall further develop the initial eLearning module proposal options submitted in response to this RFP, in agreement with ECMWF, as a first deliverable of this work package.

Proposed options for new eLearning modules shall make full use of any technological eLearning innovations. They should consider suitable formats (e.g. xAPI, SCORM), presentation and style, interactivity, innovative assessment methods, and ways to increase engagement with users, such as through gamification.

Options for new eLearning modules shall take into account capabilities and limitations of ECMWF's LMS. They shall also conform with ECMWF's branding guidelines and fit into the wider user journeys and experience of ECMWF online.

#### *2.3.2.3 Development of new eLearning resources*

New eLearning module developments shall be requested by ECMWF in a pre-agreed plan on a six-monthly or annual basis.

ECMWF shall provide the overall concept and topic of eLearning modules, together with the scientific input. The concept shall define the high-level programme, learning objectives and target audiences. The successful Proposer shall work with ECMWF colleagues to refine the module blueprints and storyboards and develop the content from input provided by ECMWF. The successful Proposer shall create any necessary graphics, audio/visual elements, animations, interactive assessments and other components. The successful Proposer shall build the module and provide the necessary ancillary data and support ECMWF in publishing the module on ECMWF's LMS.

In any new development of eLearning resources, the successful Proposer shall ensure alignment with other eLearning resources developed for ECMWF.

Any development of eLearning resources shall be agreed and approved by ECMWF.

#### *2.3.2.4 Estimated effort and schedule*

eLearning module proposal document to be delivered, with various iterations, in the first quarter following kick-off.

Allow for up to 4 potential new eLearning modules each year, each comprising on average 45 minutes of learning.

- 1.1 These Terms and Conditions ("T&C") shall apply to the procurement of any intangible beneficial function (e.g. advice, consultancy or some form of specialist activity) which is not ancillary to the supply of goods. These T&C shall also apply to any tangible items (e.g. documents, datasets and other materials) which are provided by the supplier or its agents, contractors or employees, as part of or in association with the function ("Deliverables"). In these T&C, the function and the Deliverables shall be referred to collectively as the "Services".
- 1.2 ECMWF and the person or entity whose offer is accepted by ECMWF ("Contractor") are "Parties" to these T&C. No third party is entitled to claim any rights under these T&C.
- 1.3 No variation of these T&C shall be valid unless it is confirmed in writing by authorised signatories of both Parties.

### 2 SUPPLY OF SERVICES

- 2.1 The Contractor shall from the date set in the Request or any other date agreed upon by the Parties in writing ("Commencement Date") and for the duration of the Contract provide the Services to ECMWF in accordance with the terms of the Contract.

- 2.3 In providing the Services, the Contractor shall
  - co-operate with ECMWF and comply with all instructions of ECMWF;
  - perform the Services with care, skill, diligence in accordance with best practice in Contractor's industry, profession or trade;

  - hold all materials and data supplied by ECMWF to the Contractor in safe custody at its own risk and return them in good condition, unless agreed otherwise by ECMWF.
- 2.4 ECMWF shall
  - if necessary, provide the Contractor with reasonable access at reasonable times to ECMWF's premises for the purpose of providing the Services;

- provide such information to the Contractor as the Contractor may reasonably request and ECMWF considers reasonably necessary for the purpose of providing the Services.

### 3 PRICE, CURRENCY, AND VAT

- 3.1 Unless otherwise agreed the total price payable by ECMWF shall remain fixed for the duration of the Contract, not be subject to any adjustment on the basis of the Contractor's cost experience in performing the contract, and must contain all charges, disbursements, ancillary costs and fees e.g. for accompanying licences.
- 3.2 The currency of the Request shall be in pounds sterling (£). The Contractor's prices shall be quoted in pounds sterling. The Contractor's invoices shall be submitted in pounds sterling. Payments by ECMWF to the Contractor shall be made in pounds sterling.
- 3.3 The Contractor shall take all necessary steps to facilitate ECMWF's exemption resulting from its Protocol on Privileges and Immunities from taxes, including VAT, and customs duties which might otherwise be payable in relation to the Goods. It will do so by carrying out the necessary formalities so as to bring about the exemption from taxes and duties which might otherwise be levied on the expenses it will incur, before it submits the invoice to ECMWF; and by complying with all necessary formalities so that ECMWF itself may be exempt from paying such taxes and duties. For these purposes, it shall request the necessary instructions from ECMWF and provide in due time the information which ECMWF requires.
- 3.4 ECMWF will not pay any other taxes or duties relating to the Goods. The Contractor shall be liable for all other taxes, assessments, fees, licences, administrative customs charges or other governmental assessments or charges that are applicable to the performance of this Contract. It is each Party's responsibility to inform itself of its liabilities in each country where such liabilities may arise.

### 4 INVOICING AND PAYMENT

Save where different payment terms are specified in the Request, ECMWF shall pay all invoices within 30 days of receipt provided the Contractor has complied with its obligations under the Contract, particularly with Article 2 of these T&C, and the invoice is correct, stating the applicable Services, the price, the Contractor's VAT number, any Order number and has been issued to Finance Section at ECMWF, Shinfield Park, Reading, RG2 9AX, United Kingdom, and sent thereto or to [finance@ecmwf.int](mailto:finance@ecmwf.int). The Contractor shall supply ECMWF with all necessary information as advised by ECMWF regarding the Services, in good time before the performance, to enable ECMWF to avail itself of its exemption from customs duties and taxes.

### 5 KEY PERSONNEL AND PERSONNEL

- 5.1 If ECMWF chooses to define key personnel in the Request, such personnel shall not be released or replaced by the Contractor without prior written consent by ECMWF. ECMWF's consent shall not be withheld unreasonably. Replacements shall be of at least equal status or of equivalent experience and skills to the key personnel being replaced and be suitable for the responsibilities of that person in relation to the Services.

- 5.2 Any personnel, including key personnel, shall be exchanged at ECMWF's request subject to four weeks written notice, unless extraordinary circumstances require a shorter notice period. In that case, ECMWF has to provide the Contractor with a written statement of grounds.
- 5.3 Personnel other than key personnel, may be exchanged at the Contractor's discretion subject to four weeks written notice, unless extraordinary circumstances require a shorter notice period. In that case, the Contractor has to provide ECMWF with a written statement of grounds.

## 6 CALL-OFF CONTRACT

- 6.1 In certain cases, meeting the initial Request may require more than one order. The award of a Contract based upon one such order does in no way limit ECMWF's right to invite new bidders for future orders under the same or a similar Request.
- 6.2 In such cases, the Contractor agrees that ECMWF may order further Services following the initial acquisition under the Contract and at the Price specified in the Contract or the Price in a quotation in response to a Request, as appropriate.

## 7 WARRANTY REMEDIES; TERMINATION

- 7.1 If the Services are not performed in accordance with Clause 2.3 and the Contractor fails to correct any breach in due time, ECMWF shall be entitled to avail itself of any one or more of the following remedies at its discretion: (a) to rescind or suspend the Contract with immediate effect; (b) to refuse to accept any further Service performance and to source alternatives without any liability to ECMWF; (c) to carry out at the Contractor's expense any work necessary to make the Services comply with the Contract; and (d) to claim such damages as may have been sustained in consequence of the Contractor's breach of Contract; and (e) to reclaim any advance payments ECMWF may have made; and (f) to offset any such claims for damages or refunds against any outstanding portion of the price.
- 7.2 ECMWF may resort to any one or more of the remedies stipulated in Clause 7.1, mutatis mutandis and with immediate effect upon written notification, if it comes to the conclusion:
- That the Contractor has committed errors, irregularities, fraud or breaches of other obligations under the Contract; or
  - That the Contractor is involved in any legal proceedings concerning its solvency, or ceases trading, or commits an act of bankruptcy or is adjudicated bankrupt, or enters into liquidation whether compulsory or voluntary (other than for the purposes of an amalgamation or reconstruction) or makes an arrangement with its creditors or the Contractor is placed into administration or has an administrator, receiver or manager appointed over all or any part of its assets or generally becomes unable to pay its debts; or is acquired by or merged with any third party.
- 7.3 It is left to the Contractor to provide evidence to rebut ECMWF's conclusions. ECMWF may take timely rebuttals into account, reconsider the remedies, or enter into negotiations with the Contractor.
