

Annex 1: Preliminary agenda for the AER parallel session

General Remark from O.Boucher: 'In light of the overall advancement of the AER project, the PRO workplan for AER seems ambitious but achievable viz: to plan the first reanalyses in JJA 2006 and the improved reanalysis for the following 3 quarters. For this we need to decide for an aerosol model configuration, which will be a focus of the general assembly'.

7 Feb 13.30-17.00

Presentations by WP and task leaders

- 13.30 WP1 Olivier Boucher
- 13.45 WP1 Jean-Jacques Morcrette
- 14.00 WP1 Slimane Bekki
- 14.15 WP2 Mikhail Sofiev
- 14.30 WP2 Yves Balkanski ?
- 14.45 WP3 Angela Benedetti
- 15.00 WP3
- 15.15 WP3
- 15.30 Coffee/tea break
- 16.00 WP4 Colin O'Dowd
- 16.10 WP4 Stefan Kinne
- 16.20 WP4 Isabelle Chiapello
- 16.30 WP4 Alexander Mangold
- 16.40 WP4 Harald Flentje
- 16.50 Wrap-up
- 17.00 Adjourn

8 February 9.00-12.30

- 9.00 Breakout AER session: model configuration/satellite and 4D-VAR
- 10.30 Coffee/tea break
- 11.00 Plenary AER session: report of breakout groups to plenary
- 11.30 Discussion on model sources: BB sources and injection height, industrial sources
- 12.30 Lunch break

8 February 13.30-17.00

- 13.30 Discussion on model sources: dust, sea-salt, stratospheric sources, trends, variability
 - 15.00 Discussion on model evaluation
 - 15.30 Coffee/tea break
 - 16.00 Finalisation of months 13-30 implementation plan, reporting, and wrap-up
 - 17.00 Adjourn
-
