

Met Office

WP1/WP2 breakout discussions

ERA-CLIM2 General Assembly, Dec 2015.

Discussion topics

- Scientific discussion on selected topics:
 - ensemble generation
 - ocean BGC
 - EOF assimilation
 - comparison of CERA/METO coupled covariances
- Latest on CERA system.
- Code merging/integration updates.
- Future WP2 meetings. Should we have one in ~6 months time?
- Suggestions for potential ERA-CLIM3 work on developments for coupled reanalysis.

Met Office

Notes

CERA-Sat: outputting fluxes/transport vs monthly means

Exploiting results

Production versus integration of upper-air data.
