We are pleased to provide the following clarification responses to questions received:

1 Ref: C4_RFP_361

Question:

Would it be possible to give clarity on the types of communication activities or deliverables that are expected from the bidder, when it comes to communicating the findings to external and internal stakeholders?

Answer:

ECMWF expects the contractor to deliver traditional presentations on the findings/report to be used at ECMWF committee meetings or for other internal stakeholders meetings, but also more modern and compelling ways, such as infographics summarising the findings, which can be used for a wider audience. The specification of requirements is not prescriptive on this aspect, so bidders can propose activities and/or deliverables that they think would be most appropriate and effective.
