Ref: ECMWF/RFP/2021/320
ISSUED BY: ECMWF Administration Department Procurement Section
Date: 18 October 2021
Version: Final

1 Ref: C11_RFP_320

Question:

Has the qualitative and quantitative research mentioned for WP2 already been conducted by ECMWF or will it be part of the contractor's activities?

Should the study of the new look & fill should be included in the proposal or do you wish to maintain the current style?

Answer:

Qualitative and quantitative research has been carried out, which would be made available to the selected partner. Proposals should be for maintaining the current style. It is a build and migrate project of the current corporate website, not a re-design. The cms and build should have flexibility for additional styling templates and flexibility of layout in the future.
